CIO Note: November, 2024

Market achieves all-time high of 100,000 on the back of improving macros and receding inflation!

Dear Investor,

The stock market has demonstrated exceptional performance during the month, with KSE 100 index surging by an impressive 13.9%, breaking the psychological barrier of 100,000 to close at 101,357 level. The KMI 30 index has also increased by 11.11%. This rally was primarily driven by the SBP's historic 250 bps rate cut in policy rate, bringing it to 15%. The CPI inflation continued its downward trajectory, with November 2024 inflation recording at 4.90%, strengthening the case for further rate cuts in the upcoming MPS. The market exhibited huge volatility at the end of the month due to political uncertainty as KSE 100 declined by 3,500 points (largest DoD decline) on

November 26, 2024 while the index recovered by 4,700 points (largest DoD gain) on the following day owing to receding political pressure. Commercial Banks were in limelight during the month, with conventional bank shown impressive performance on the back of SBPs withdrawal of minimum deposit rate (MDR) on corporates and FIs while Islamic Banks faced pressure due to implementation of MDR on retail customers.

Economy

On the economic front, the current account balance showed significant improvement, with a surplus of USD 349 mn in October 2024 from a deficit of USD 287 mn in the same period last year. This marks the third consecutive month of surplus. For the first four months of FY25, the current account balance moved to a surplus of USD 218 mn from a deficit of USD 1.5 bn in the same period last year, mainly driven by a substantial increase in workers' remittances. On the fiscal side, the FBR's tax collection in November 2024 was at Rs 852 billion against the monthly target of Rs 1,003 billion, leaving a gap of Rs 151 billion. Total tax collection during first five months of FY25 stood at Rs. 4,292 bn, against the assigned target of Rs 4,639 bn set for July-November period of the current fiscal year, reflecting a shortfall of around Rs 344 billion.

Stable Forex Reserves and Currency

Despite loan repayments, Pakistan's foreign exchange reserves and the currency have remained stable, supported by strong remittances, SBP's dollar purchases from the market, loan rollovers, and inflows from multilateral lenders.

Continued buying by Mutual Funds

Mutual funds remained net buyers in the market, with net buying totaling USD 39 mn during the month. This marks the third consecutive month of net buying by the funds. In contrast, foreign investors were net sellers, offloading USD 58 million. On a fiscal year-to-date basis, mutual funds have been net buyers of USD 127 mn, while foreign investors have been net sellers, with a net selling of USD 155 mn. The primary drivers behind the surge in mutual funds' buying were fresh equity inflows and a shift from fixed-income assets to equities, as rapidly declining yields made equities more attractive.

Market Outlook

The stock market has successfully breached the psychological 100,000 mark, driven by the ongoing monetary easing cycle, improving macroeconomic indicators and attractive valuations. CPI inflation has been on a downward trajectory, with November 2024 inflation recorded at 4.9%, mainly due to a favorable base effect. Average inflation for FY25 is projected to range between 7% and 8%. The SBP has already slashed the policy rate by 700 basis points from its peak of 22% in June 2024. Another rate cut is anticipated in December 2024 MPS, supported by lower inflation and stable foreign exchange reserves. Valuations remain highly attractive by historical averages, with the market trading at a forward P/E ratio of approximately 5.2x, well below its long-term average of 7.8x, and offering a dividend yield of around 9% while selected blue chips are offering dividend yield of over 12%. Given these favorable conditions, we expect the market to maintain its upward momentum.

Advice for investors: Investors looking to invest for shorter tenors with low to medium risk are advised to invest in our Money Market and Income Funds. On the other hand, investors with a high-risk appetite and medium to long-term view should continue to enhance long-term exposures to equities at these levels as economic conditions will continue to improve gradually.

Salient Features

* The government of Khyber Pakhtunkhwa (KPK) has successfully transitioned from traditional defined-benefit pensions to a Voluntary Pension System (VPS) for its civil servants.

* The new VPS scheme is aimed at providing better benefits and more security to retirees and will eventually replace the old and outdated pension system.

* The K-P government has engaged several pension fund managers to ensure that the new scheme remains self-financing and doesn't become a burden on the government.

* As an industry leader, Al Meezan has launched its Meezan GOKP Pension Fund (MGOKPPF) on 14th December 2023.

* MGOKPPF shall consist of four sub-funds: Equity, Equity-Index, Debt, and Money Market. However, for initial three years, only Money Market sub-fund will remain active.

* MGOKPPF offers lucrative allocation schemes for the benefit of investors.
